Check your Dibber Number corresponds with that on Start List.

2 Races to be run by all competitors (Prologue and Chase).

Race 1 Start Times published on website – please be punctual. Where entries allow there are HALO v LOG head to head races with starts at the same time. The allocation of points is based on individual times so the head to head races do not influence the overall scores - just a fun element and an incentive to beat an opposing club counterpart.

Race 2 Start times are 7.30 pm plus your first race time

For both Races there are different Course combinations, all competitors will visit the same controls but not necessarily in the same order. Follow the map and not the other competitors!!

For both Races the Course run will be pre-allocated and details will be given to each competitor in the Start Lane.

To assist, Control Box Numbers will be displayed on the map next to the Control Number. In some instances the same Control is visited twice – so in purple next to the circle it could show 3, 8 [71]. So Control 71 is the third and the eighth site to be visited.

Control Descriptions Issued In Start Lane - Punching Starts

At the end of the Prologue please temporarily leave your maps in the box provided until all competitors have started. Please try not to discuss the Courses with others who have not yet started.

Any competitor who mis-punches on Race 1 will be allocated a Race 2 start time towards the rear of the field. Note the scoring system in the 2015 LCS is such that anyone who mis-punches in either of the 2 Races can still score points in the Race that they completed successfully.

Race 2 Start Times will be displayed in Name Order asap after everyone from Race 1 has downloaded. Please therefore download asap.
