

#### **HALO Pub League 4.....**

Thanks to Paul Simmons for planning at Beverley last week.

David Jolly and Neil Harvatt managed to collect all 20 controls, with Pete Shew and Brian Ward getting 17 each, all within time.

Holly Horton managed 18 but with one time penalty, whilst Brian Slater got 17 in 48 minutes, costing him 40 points.

Neil won the handicap result and after four races the league table now reads,

Brian Ward 1st on 190 points,

David Jolly and Pete Shew tied 2nd on 189 points.

So as the competition reaches its final stages.....

Can Pete Shew use his home advantage tonight?

Will Holly Horton be 10 seconds under or 10 seconds over the time limit?

And since only your best four results count, what will that do to the league table?

#### **The first day of spring .....?**

The 21st March has traditionally meant the start of spring. But now we have the meteorological start of spring on the 1st March, and to confuse you more, the actual equinox (equal day and night) was last week. But to some, the clocks going forward next Sunday, really means the start of spring.....
